Dear Neil,

One month later, and the compliments about how spectacular the music was at Eben's Bar Mitzvah party continue to flow.

You are everything and more than Janie promised you would be to work with—all of your staff from Paris Productions was attentive, energetic and polite. You were enormously patient and understanding and did more than held our hands—you led us into a place where we could relax and enjoy our own party. We are so fortunate to have worked with you!

Nothing phased you—from working in a difficult venue to holding our hands in the music selection process.

Please use us as references whenever the need arises. We were absolutely thrilled with every single aspect of working with Paris Productions. Thank you for making such a special event in our lives even more exceptional!

Warm regards,

Cheryl
