

Paris
Productions, inc.
Full Service Interactive DJ Entertainment

WEDDING DJ ENTERTAINMENT AND VIDEOGRAPHY

All weddings are entertained with class and professionalism. We are far from the hokey old school DJ who dresses in a chicken outfit doing the y-m-c-a on the dance floor. Your party will not be turned into a circus!

All music is customized and appropriate for your party. Your dis-likes are just as important as the thing you DO want at your reception. We find the right mix of music to ensure all age ranges and guests have a blast and remember your special day for all the right reasons! Our small company size, ensures that you receive the attention that you deserve. You will feel as though you are our only client.

In addition, in advance of your wedding, we will help coordinate an agenda/timeline for your reception, making sure that all people involved (caters, function managers, etc,) are all on the same page, ensuring a smooth party!

Paris Productions will handle all the formalities, including bridal party introductions, the cutting of the cake, parent dances, and garter and bouquet. All you have to do-is show up!

Please visit our website for more: www.parisproductions.com

It would be our pleasure to setup a meeting with you to discuss all in person, please call or e-mail us, and thank you again, for your interest!
